Summary:

Are you looking for an enthusiastic web developer? I have about 1.5 years of experience as a frontend developer plus experience in backend and in creating telegram bots. I always learn new technologies and improve my programming skills daily.

Skills: JavaScript, TypeScript, Node, Express, HTML5, CSS3, MUI (material design for react), Material Design, React, Redux Toolkit, Telegram API, Mongo DB, Google API(such as Gmail and Google maps), Git, Figma

Work Experience:

Frontend developer at Qaddly Software Testing School (remote, Canada)

Dates employed: 05.2022 - Current.

Achievements:

- Created Quaddly school website, and developed its architecture from scratch
- The project is entirely written in TypeScript

General:

- Used React Material UI for all components on the web site
- Validated forms and backend requests/responses using React Hook Form and Express Validation
- Used Gmail API for the mail service based on Node.js
- Implemented certificate storage using MongoDB
- Worked in an Agile environment (Kanban)

Tools:

React, TypeScript, Node, Express, Google Material Design(MUI), Mongo DB, Gmail API, Git

Intern Frontend developer at Chooslix (remote, Canada)

Dates employed: 08.2019 - 05.2020

Achievements:

- Implemented goods management page using Material Design and React Hooks
- Helped the team implement the admin portal

General:

- Worked in an Agile environment
- Fixed a lot of minors and sometimes majors bugs
- Implemented reusable UI components for the Admin portal and applied them in many places
- Worked together with the backend and devOps team

Tools:

React, Node, Express, TypeScript, Git, HTML5, CSS3

Freelance:

General:

- Developed web applications from scratch such as simple Landing page and small Marketplaces.
- Created several Telegram bots

Tools: Figma, JavaScript, TypeScript, React, Redux toolkit, MUI, Mongo DB, Node, Express, Git, Google API, Telegram bot API, Telegraf.js, Postman, Insomnia

Languages: Russian, English, Hebrew(studying now)

Education:

Kuban State Agrarian University

Bachelor's degree, economics

09.2014 - 06.2018

Tel-Ran Educational Center

Course, Java, Web and Android development

09.2019 - 05.2020
