Summary:

Are you looking for an enthusiastic web developer? I have about 1.5 years of experience as a frontend developer plus experience in backend and in creating telegram bots. I always learn new technologies and improve my programming skills daily.

Skills:

Programming languages: TypeScript, JavaScript.

Frontend frameworks: React, Next.js.

State managers: Redux, Redux Toolkit, Zustand.

Styling and motions: SCSS, Tailwind, MUI, Ant Design, Chakra UI, Styled Components, Framer Motion, React Spring.

Builders: Vite, Webpack.

Version controll: Git.

API testing: Postman, Insomnia.

Data Bases: Mongo, Postgres.

Backend: Node.js, Express, Nest.js.

Work Experience:

Frontend developer at GeekDucks Software Testing School (remote, Canada)

Dates employed: 05.2022 - 02.2023.

Achievements:

- Created GeekDucks school website, and developed its architecture from scratch
- The project is entirely written in TypeScript

General:

- Used React Material UI for all components on the web site
- Validated forms and backend requests/responses using React Hook Form and Express Validation

- Used Gmail API for the mail service based on Node.js
- Implemented certificate storage using MongoDB
- Worked in an Agile environment (Kanban)

Tools: React, TypeScript, Node, Express, MUI, Mongo DB, Gmail API

Intern Frontend developer at Chooslix (remote, Canada)

Dates employed: 08.2019 - 05.2020

Achievements:

- Implemented goods management page using Material Design and React Hooks
- Helped the team implement the admin portal

General:

- Worked in an Agile environment
- Fixed a lot of minors and sometimes majors bugs
- Implemented reusable UI components for the Admin portal and applied them in many places
- Worked together with the backend and devOps team

Tools: React, Node, Express, TypeScript, SCSS

Freelance:

General:

- Developed web applications from scratch such as simple Landing page and small Marketplaces.
- Created several Telegram bots

Languages: Russian, English, Hebrew(studying now)

Education:

Kuban State Agrarian University

Bachelor's degree, economics

09.2014 - 06.2018

Tel-Ran Educational Center

Course, Java, Web and Android development

09.2019 - 05.2020
